Dear Members of the Campus Community,

We are writing to draw your attention to some often overlooked resources managed by the Office of Human Resources (OHR). During these extraordinary times, these helpful resources support the strength, talent and diversity of our campus community.

Vibrant Pittsburgh

Vibrant Pittsburgh's mission is to build a thriving and inclusive Pittsburgh region by attracting, retaining and elevating a diversity of talent. [Vibrant Pittsburgh](#) accomplishes this vision by partnering with regional employers, such as CMU, to promote and implement initiatives that are designed to welcome and retain more diverse talent.

Our membership with Vibrant Pittsburgh allows members of the CMU community to access data, articles, tools, and other resources about diversity and inclusion in our region.

To access resources and for more information, visit Vibrant Pittsburgh and log on to use CMU's member resources (Username: CMU, Password: 5000Forbes). For further question or concerns, please reach out to professionaldevelopment@andrew.cmu.edu.

Service Providers and Summer Job Opportunities

Due to the pandemic, many summer jobs or internships have been eliminated, and many past service providers may not be available. Fortunately, OHR is managing two resources that can help find services and jobs.

Care.com

CMU is partnering with [Care@Work by Care.com](#) to offer a new family care benefit. Caring for your family while you are at work can often be a challenge, especially during the current pandemic. To help alleviate some of life's unexpected challenges, the university is providing faculty, staff and graduate students (undergraduate students needing family care resources should reach out to the OHR for assistance) with the following services through the Care@Work program.

You can learn more about [Care@Work Family Care Benefits](#) online. If you have any questions, please contact the HR Service Center at 412-268-4600 or hr-help@andrew.cmu.edu.

CareLink

[CareLink](#) is a platform that allows talented members of the CMU community to share their services with others on campus in need of help. This tool exists to provide a space where our community can support one another directly through sharing needs and matching those needs with the diversity of talent that exists at CMU.

In addition to the CMU community, CMU staff, faculty and students can sponsor individuals – such as a sibling or a spouse – to allow them to use the site as well.

[CareLink](#) provides an alternative option for finding help or a job and is a way for our community to connect, support one another and embrace our shared talent. Visit carelink.cmu.edu today for more information. To login, use your Andrew ID and password.

For further questions or concerns about CareLink, please reach out to carelink-help@andrew.cmu.edu.

We hope you find these resources helpful as we continue to navigate through the pandemic personally and professionally. We are stronger together.

Be well,

Todd Rosignoli
Senior Director of Learning and Development
Office of Human Resources
